

Dynamic Pricing on I-75 South Metro Express Lanes

The State Road and Tollway Authority (SRTA) Department of Transportation (GDOT), is excited to introduce The I-75 South Metro Express Lanes, Georgia's first reversible toll lanes, as a new travel option to mitigate congestion for Georgia commuters traveling south of Atlanta.

The I-75 South Metro Express Lanes are newly constructed reversible toll lanes that run along the median of Interstate 75 through Henry and Clayton counties. Like all of Georgia's Express Lanes, these reversible lanes will be managed by dynamic priced tolling, with the cost rising as demand increases and falling during off-peak travel times or as demand decreases.

How much will the toll cost?

The I-75 South Metro Express Lanes are dynamically priced with a minimum trip of \$0.50. As demand for use of the Express Lanes increases, the toll amount rises to ensure that motorists using the Express Lanes experience more reliable trip times. Motorists can see the posted toll amount on toll rate signs before they enter the Express Lanes, so that they are able to decide whether or not they want to use them. Toll rate ranges will be set by the SRTA Board as we get closer to the opening of the toll facility.

Unlike the I-85 Express Lanes, transit riders and vanpools that are registered with the State of Georgia can ride for free on the I-75 South Metro Express Lanes. Alternate fuel vehicles (AFVs), motorcycles and all carpools must pay tolls on I-75 South Metro Express Lanes.

How are tolls collected?

Tolls on the I-75 South Express Lanes are collected electronically through a Peach Pass transponder, with no toll booths requiring drivers to slow down or stop. The Peach Pass is a small electronic tolling device (about the size of a band-aid) that is connected to a Peach Pass customer's debit or credit card. It can be mounted on the inside of a vehicle's windshield or on a bumper that mounts to the front of your vehicle.

Will drivers have to stop to pay tolls?

There are no toll booths on the I-75 South Metro Express Lanes. Tolls will be collected electronically through Peach Pass. Use of this innovative technology allows drivers to maintain highway speeds instead of slowing down or stopping at a toll booth.

How much does a Peach Pass cost?

Peach Pass transponders are free. Most motorists will get a Personal Toll Account, which requires a prepaid toll balance (minimum of \$20) using a debit or credit card. This balance is deducted when a motorist uses the toll roads and incurs tolls. The Personal Toll Account is replenished with \$20 when the account gets to a low balance of \$10 or under.

A Pay n GO! Peach Pass Starter Kit, which includes a Peach Pass transponder and Reload Card, can be purchased for a \$2.50 retailer fee in addition to the cost of the amount of prepaid

tolls (any amount between \$20 and \$500). NOTE: A Pay n GO! Peach Pass must be converted to a Personal Toll Account in order to be used in Florida and North Carolina.

How do I get a Peach Pass?

Motorists can set up Peach Pass accounts and receive their Peach Pass transponders by:

- Visiting PeachPass.com
- Applying via the Peach Pass GO! mobile app for Android and iPhone devices
- Calling the Peach Pass Customer Service Center 1-855-PCH-PASS (724-7277)
- Getting a Pay n GO! Peach Pass at area CVS/pharmacy® or Walgreens® locations (visit <http://peachpass.com/peach-pass-customers/get-a-peach-pass> for locations)
- Opening an account in person at a Peach Pass Customer Service Center.

There are three Peach Pass Customer Service Center locations:

Peach Pass Walk-Up Center

State Road and Tollway Authority
47 Trinity Avenue, Ground Floor
Atlanta, GA 30334
Open Monday - Friday

Department of Driver Services (DDS)

Lawrenceville, GA 30046
Open Tuesday through Saturday
(see the DDS website (www.dds.ga.gov) for normal business hours)

Department of Driver Services*

619 Tanger Drive
Locust Grove, GA 30428
**Opening Fall 2016*

What do I need to open and manage a Peach Pass Account?

To open a Peach Pass Personal Toll Account, you will need the following information:

- Name, address and a contact phone number
- Year, color, make, model and license plate number of vehicle(s) needing a Peach Pass
- An initial payment of \$20 to open the account (can be in the form of credit/debit card, check, money order or cash at select Customer Service Center locations)
- A valid, active credit card or debit card for replenishment of your account

Motorists with a Peach Pass Personal Toll Account can manage their billing information online at PeachPass.com. The newly redesigned Peach Pass GO! Mobile app also offers Peach Pass Personal Toll Account customers added control and access to their Peach Pass personal toll account. Users can register for a Peach Pass via the mobile app, update account information including credit cards, add new vehicles and manage account notifications in a secure environment for Android and iPhone users. Users will continue the ability to update their toll mode for rides on the I-85 Express Lanes, where HOV-3 vehicles can ride toll free.
